

# Card holder

P.no. 155

## type CP3

A specially designed holder for contactless cards with a built in RFID blocker (125 kHz and 13,56 MHz) to prevent unauthorized access over the air to money and personal e-data.

CP3 has two independent slots, one to insert a contactless card, and the other for informational or advertising paper of 53 x 87 mm dimensions.

Designed to store ATM card shape (size) and is compliant with ISO/IEC 7810:2003 standard.

It fits easily in wallet - it is streamlined and thin (only 4 mm).

Colours: - transparent colourless polipropylene (on stock)  
- others, transparent for individual order

Packaging: - 5 bags of 40 pcs. / bag in one box (200 pcs.)
