

Card holder

P. no. 156

type KB2

The KB2 cardholder is made from polypropylene and designed to hold one or two ID-I format cards with dimensions of 85,60 x 54 mm (ISO / IEC 7810:2003 compliant).

The rear wall of the cardholder is elastic and can flex to accommodate the thickness of the cards inserted.

It can hold a card or cards up to a maximum thickness of 1,56 mm.

Card removal is quick and easy as there is a hole for the thumb.
